

Sponsorship Opportunities

Benefiting Cobb Community Foundation

The importance of sponsoring the Together We Can Celebration cannot be overstated, as your sponsorship supports and strengthens the mission of Cobb Community Foundation.

Together, we can ensure impact grants continue to be available to those charitable organizations serving the Cobb community. In fact, 20% of your sponsorship dollars will go directly to the Community Impact Fund, and 100% of grants awarded from Cobb Community Foundation will go to organizations serving Cobb County.

Sponsorship levels are higher than historical levels for what was previously known as our annual Partners in Philanthropy Luncheon. We plan to reinstate the Partners in Philanthropy Luncheon in the spring of 2019 when we award the first set of grants from the Community Impact Fund, and we anticipate those sponsorships to return to previous levels.

Help us help Cobb County's charitable organizations by sponsoring the Together We Can Celebration. Because together, we can make a difference. For more information on sponsorship opportunities, contact Cobb Community Foundation at 770.859.2366.

Celebrating 25 Years of Inspired Charitable Giving

Upscale Sunday Brunch
October 21, 2018

12:30 p.m. – 3:00 p.m.
Cobb Galleria Centre

In late 1993, a group of Cobb business leaders, established the Cobb Community Fund at the Community Foundation for Greater Atlanta. Fourteen years later, we obtained our 501(c)(3) designation and became Cobb Community Foundation.

Today we are fulfilling our mission of inspiring charitable giving, building resources for the future and connecting donors who care with causes that matter. Because it is our vision to one day live in a community fully engaged in meeting needs now and into the future.

As 2018 marks the 25th anniversary for Cobb Community Foundation, the Together We Can Event will celebrate this momentous year and raise funds to further support our mission through the Community Impact Fund, a charitable fund that will provide community impact grants to Cobb County in 2019 and beyond. This cornerstone event will be the first of its kind in Cobb County: an elegantly simple, upscale Sunday brunch, which will honor the people on whose shoulders the organization was built – founders, past board chairs and board members.

Attendees will hear from individuals whose lives were impacted by Cobb Community Impact Grants and will have an opportunity to adopt a 2019 grant or even adopt a grant permanently.

AUDIENCE

The approximately 650 attendees will include executives and business owners in industries ranging from manufacturing, real estate development, construction, property management and engineering to financial services, wealth management and law and accounting. It will also include the personal friends and family of our honorees.

HONOREES

Attendees will toast our soon-to-be-named Philanthropist of the Year and recognize another founder – Tommy Allegood, mayor of Acworth, former executive director of Cobb Community Foundation and founder of the Cobb Community Impact Grant.

James L. Rhoden, Jr. *Award for Visionary Philanthropy*

Every year, we recognize an extraordinary community philanthropist for vision and generosity who improves the quality of life in our community. Last year's recipient recognized as the Philanthropist of the Year was former Governor Roy Barnes. Previous recipients include Valery Voyles, Ron Francis, Doug Hertz, Bob Prillaman, Doug Chaffins, Fred Bentley, Sr., Sam Olens and Jerry Nix.

OUR COMMUNITY NEED IS GREAT

Previously, Cobb County and matching funds from private donors funded the Cobb Community Impact Grants. Cobb Community Foundation was entrusted with the oversight of the grants management and resulting impact. Since 2015, approximately \$820,000 of Cobb County taxpayer dollars, along with matching private contributions equaling \$937,000, have been awarded. As a result, nearly 325,000 Cobb County residents have been positively impacted.

Due to Cobb County funding limitations, the Cobb Community Impact Grants are no longer available. In order to continue our mission and help meet the needs of the community, we are launching the Community Impact Fund, where private contributions will support non-profits in need.

**In 2017,
Cobb Community
Foundation provided
\$1.4 million in grants,
\$900,000 of which
was distributed
to charitable
organizations
right here in
Cobb County.**
